- Please fill the bubbles in OMR sheet with Blue or Black pen only.
- Do not tear the question paper or OMR sheet else you will be disqualified in the examination.

## CLASS-8 (COMPUTER)

- Which type of operating system is used for embedded computers like PDAs?  
a) Templated                      b) Distributed                      c) Real-time                      d) Embedded
- What is the primary function of a Library operating system?  
a) Processor management      b) Networking                      c) Memory management      d) Device management
- Which type of OS manages a group of individual computers to appear as a single computer?  
a) Templated                      b) Multi-User                      c) Real-time                      d) Single-User
- What is the primary role of the processor in the operating system?  
a) Allocate memory to processes      b) Execute application programs  
c) Manage external devices              d) Schedule tasks by time-sharing
- Which is a common graphical user interface feature in modern operating systems?  
a) Time-sharing                      b) Single address space  
c) GUI with icons, buttons, and menus      d) Real-time processing
- Which attribute is used to change the direction of scrolling?  
a) `<||| p |||>scroll<||| /p |||>`                      b) `<||| p |||>direction<||| /p |||>`  
c) `<||| p |||>alt<||| /p |||>`                      d) `<||| p |||>None of the above. <||| /p |||>`
- Which of these tags indicates the beginning of HTML program?  
a) `<||| ||| HTML ||| |||>`                      b) `<||| ||| Title ||| |||>`                      c) `<||| ||| /HTML ||| |||>`                      d) `<||| ||| Head ||| |||>`
- Which of the following is true?  
a) Ordered list is an unnumbered list                      b) Type is an attribute of `<||| ||| li ||| |||>`  
c) Unordered list items are presented with bullets.                      d) `<||| ||| ol ||| |||>` is an empty tag.
- Table can be inserted using \_\_\_\_\_.  
a) `<||| p |||><||| insert |||><||| /p |||>`                      b) `<||| p |||><||| table |||><||| /p |||>`  
c) `<||| p |||><||| add |||><||| /p |||>`                      d) `<||| p |||>< add table ><||| /p |||>`
- Heading in a table can be defined with \_\_\_\_\_.  
a) `<||| ||| tr ||| |||>`                      b) `<||| ||| td ||| |||>`                      c) `<||| ||| th ||| |||>`                      d) `<||| ||| thead ||| |||>`
- Which of the following is another term for Shareware?  
a) Trial ware                      b) Hardware                      c) Bugware                      d) Spyware
- Free email like outlook, yahoo, etc. allows \_\_\_\_\_.  
a) Allows to navigate                      b) Allows to do programming  
c) Friends to communicate with each other                      d) Allows Video Conferencing
- Which of the following is a symptom of a computer virus?  
a) PC Failure                      b) Hardware Failure                      c) Unexplained data loss                      d) Both a and c
- Which of the following exploits network configuration errors?  
a) P2P Worms                      b) Computer Worms                      c) Net Worms                      d) Configuration Worms

15. Which of the following eats up computer memory?  
a) Bacteria                      b) Trojans                      c) Worms                      d) Viruses
16. Under which tab is the tables group present?  
a) Home                      b) File                      c) Create                      d) Database Tools
17. How many views of the table are present?  
a) 2                      b) 3                      c) 4                      d) 5
18. Which is the default view of MS Access?  
a) Default view                      b) Design view                      c) Database view                      d) Datasheet view
19. In which view are the records not visible?  
a) Default view                      b) Design view                      c) Database view                      d) Datasheet view
20. In which view can we see all the fields and the records as entered by the user?  
a) Default view                      b) Design view                      c) Datasheet view                      d) Database view
21. Which technology is used by Google to reduce its power consumption in its data centres?  
a) IoT                      b) Windows                      c) Artificial Intelligence                      d) Android
22. A ..... is someone who seeks and exploits weakness in a computer system.  
a) Officer                      b) Hacker                      c) Cracker                      d) Tracker
23. There are how many types of a hacker?  
a) 12                      b) 8                      c) 10                      d) 7
24. Which type of hacker hacks a system for non-malicious reasons?  
a) White                      b) Black                      c) Grey                      d) Elite
25. Denial of service is a type of \_\_\_\_\_.  
a) Worm                      b) Virus                      c) Cyber attack                      d) None of these
26. Time taken by device to read actual data is  
a) Transfer time                      b) Seek time                      c) Seek Delay                      d) Access Delay
27. A single disk which is held in a protective jacket and the surface is magnetized and can read/write data is  
a) Hard disc                      b) Protective disc                      c) Magnetized disc                      d) Floppy disc
28. Laser discs and compact discs are  
a) Blocked discs                      b) Bubble discs                      c) Optical discs                      d) Fixed head discs
29. Which of the following is not a magnetic storage type?  
a) Hard discs                      b) Floppy disks                      c) Compact Disk                      d) Magnetic Tape
30. Which menu in MS-PowerPoint allows actions such as creating a new document, opening an existing document, and saving a document?  
a) File menu                      b) Slideshow tab                      c) Review tab                      d) Protect Presentation
31. How can you create a new document in MS-PowerPoint 2010?  
a) New > Blank document > Create                      b) File > New > Blank document  
c) Create > New document                      d) Press Ctrl + X

32. How do you protect a presentation in MS-PowerPoint 2010?  
a) File > Protect Presentation  
b) Protect Presentation in Info pane  
c) Protect Presentation in Slideshow tab  
d) Save and Protect
33. Which tab in MS-PowerPoint 2010 is used for playing a slideshow from the beginning or the current slide?  
a) File tab  
b) Slideshow tab  
c) Review tab  
d) Protect Presentation
34. Another term for Ethernet Network is?  
a) Connector  
b) Wired Network  
c) Wireless Network  
d) Extension
35. Which of the following connects a LAN to a WAN?  
a) NIC  
b) Repeater  
c) Router  
d) Hotspot
36. Which of the following is not a type of wireless security protocol?  
a) Media Access Control  
b) Wired Equivalent Privacy  
c) Robust Secure Network  
d) Wi-Fi Protected Access
37. Which of the following is necessary to connect two computers?  
a) Intranet  
b) Wireless Internet  
c) Category 5 Cable  
d) Network Interface Card
38. In latest generation computers, the instructions are executed?  
a) Parallel only  
b) Sequentially only  
c) Both sequentially and parallel  
d) All of above
39. Who designed the first electronic computer – ENIAC?  
a) Van-Neumann  
b) Joseph M. Jacquard  
c) J. Presper Eckert and John W. Mauchly  
d) All of above
40. By default, this panel is located below the flash environment?  
a) Library Panel  
b) Layers Panel  
c) Debug View  
d) Property Inspector Panel
41. It adds to the viewer's experience, making for a much richer and enjoyable activity?  
a) Sound  
b) Commercials  
c) Advertisements  
d) Tweens
42. This action allows you to save the object in the library panel for future use?  
a) Exporting  
b) Convert to text  
c) Convert to symbol  
d) Importing
43. This panel indicates what settings are being used for objects and allows you to change those settings?  
a) Frames  
b) Properties  
c) Tools  
d) Actions
44. What is the smallest and largest font size available in Font Size tool on the formatting toolbar?  
a) 6 and 72  
b) 8 and 64  
c) 8 and 72  
d) 6 and 64
45. The \_\_\_\_\_ group on the Review tab can be used to "Compare" document versions and combine multiple versions of a document with tracked changes into one document.  
a) Tracking  
b) Changes  
c) Combine  
d) Compare
